

VISA-Appointments

You need an appointment to apply for a visa.

Please register for an appointment **at the Embassy** when you want to apply for a national visa, for example for family reunion, marriage, study and employment (except for nurses). Your appointment can also be set from abroad (for example by your host). The link to the Embassy's Appointment System is available on our web page (<https://manila.diplo.de/ph-en/service/visa/-/1788386>)

Please book an appointment **at VFS**, if you want to apply for a Schengen visa or if you want to apply for a visa to work as a nurse. The link to the VFS Appointment system is available on our web page (<https://manila.diplo.de/ph-en/service/visa/-/1788388>).

Exception for nurses: If your employer applied for the accelerated procedure via the Immigration Service in Germany, please register for an appointment **at the Embassy** and choose the category „Accelerated procedure for qualified labour“.

All applicants are asked to fill out the application form at home and then bring a printout of the form to the appointment. Please use the Videx system:

For Schengen visa: <https://videx.diplo.de>

For National visa: <https://videx-national.diplo.de/videx/visum-erfassung/index.html>

Please note:

A printout of the form is only possible after all the required mandatory fields have been completed.

The printout should be done in the best possible quality so that we can read the barcode into the data processing system.

Please make sure that you book the appointment in the correct category. Otherwise your application may not be received when you appear for your appointment.

You must in any case appear personally for your booked appointment.
